

Sunflower Seed Song

(Sing to the tune of 'Pop Goes the Weasel'.)

The sunflower grows up very high,
With a daily water.
Watch it growing up to the sky,
Watch it grow taller.

The flower's here, bees buzz all around,
Drinking up the nectar.
Brand new seed is soon to be found,
I'll be the collector.

The flower dies but seeds they survive,
Hang them in a tree.
Help to keep the birds alive,
When weather is icy.
